IT'S ALL ABOUT TEAM WORK

Corporate Profile

We would gladly introduce ourselves as BeamTeam Safety Products Pvt. Ltd, An ISO 9001:2008: Certified Company, engaged in manufacturing, marketing and servicing of Personal Protective Equipment.

We manufacture and market our complete range under Brand name- **Beam Team**. BeamTeam is Incorporated to provide best Personal Protective Equipment to the World. We Believe in crafting our Range with finest Quality and Best Performance. Our product ranges from Complete Range of Fall Protection/Safety Net/ Reflective Workwear/ Safety Footwear/Rope Access and Rescue/Confined Space Entry/Head Protection/Road Safety/Body Protection/ Signages.

All products are as per International and Indian Standards, and are ISI and CE certified. To assure best quality product.

Beam Team prides itself for its Quality products and Timely Delivery.

Beam Team promoters are in the line of safety business and training for more than 20 years, and are backed up with experienced professionals that bring quality product through constant R & D endeavour. Our products and services offers custom made solutions, Our products are made up of superior quality material and crafted to perfection to suit your comfort, necessity and safety.

Beam Team most importantly believe in training of workman and organize regular training and mock drill at the site level.

We are constantly working to improve product performance to ensure a safer working environment.

Our Mission and Vision are not just a statement for BeamTeam it is our Way of Life.

Mission- Our Mission is to Provide Custom made Solutions and train the community for Safe working and Save lifes.

Vision- To Design the Best Personal Protective Equipment to serve the mankind across the Globe.

From the Desk of Management

Rishi Raj Singh
Chairman

BeamTeam is a Dream Venture of us. Our Tag Line is“ **Its All About Team Work**” Together we can and we will create a safer work place. Our Team Members are Partners not an employee. And as a Team we are committed to provide Finest Quality - PPE in affordable Pricing, by breaking the set rule that Products has to be highly priced for best quality We understand the value of life and provide world class Safety Equipment, this way we can in a small way contribute to the society. We believe in achieving goals and reaching New Heights in World of Safety.

DISTINCTIVE FEATURES OF BeamTeam Tower Harness Specially Designed for Rope Access ,Climbing & Rescue.

Art No- BT 50

- 1 Adjustment buckle – for ease to use with single hand.
- 2 Label-Label and marking of the harness enclosed in polyethylene tube to prevent fading in sunlight and water.
- 3 Sternal D Ring for Fall Arrest.
- 4 Ventral D Ring for Rescue and rope access.
- 5 Automatic buckle with pull grip for easy adjustment for best fit.

- 6 I D PLATE – Dorsal webbing holding cross Plate for holding D Ring in place even after a Fall.
- 7 Shoulder PAD – Fully Padded for better comfort ,shock absorption and air circulation.
- 8 Work Positioning Belt- 2 Lateral D Ring attached in waist belt for work positioning.
- 9 Thigh Strap- Fully Padded Straps with automatic

Art no BT 50

Meets EN 358,EN 361:2002,& EN 813

How To Wear Harness

How To Wear Work Positioning Belt

Adjust the lanyard length with the adjuster in order to be able work comfortably with both hands free.

SIT Harness

Art No-BT 51

- 2 Lateral D ring for work positioning
- 1 Ventral D Ring for Rope access
- Adjustable and soft padded thigh strap and waist belt for best possible comfort
- Usage- Work positioning ,Restraint System and rope access work
- Meets EN 358:2000 & EN 813

Work Positioning Belt

Art No- BT 61

- Wide Comfort pad to support long working period
- Fully Adjustable
- Two Lateral D ring for work positioning
- Tool Holding webbing loops
- Meets EN 358:2000

Art No-BT 62

- Narrow Comfort Pad for sufficient support
- Fully Adjustable
- Two Lateral D ring for work positioning
- Tool Holding webbing loops
- Meets EN 358:2000

WORK Positioning Lanyard with Grip Adjuster

Art No-BT 260

- Made of 14 mm dia polyamide 3 strand twisted rope with maximum length 2 mtrs
- Rope grab adjuster for length Adjuster
- Both End connected with Karabiner BT H 10
- Meets EN 358:2000

BeamTeam
IT'S ALL ABOUT TEAM WORK

BeamTeam Offers varied range of ISI Standard Fall Protection Harness ,which covers all features of Height Safety in most hazardous Situation. Manufactured from Most advanced polyester Webbing and specially designed buckles .Providing Best ergonomics fit for workers.

Conforms to IS 3521:1999

Freedom Range Harness (ISI Range)

Art No-BT 11

(Class A) for basic fall arrest

This harness has one Dorsal D ring and is designed to support the body in comfortable position after any fall .

Art No-BT 12

(Class L) for tower climbing

This harness is Used for ladder and Tower climbing. It is equipped with 2 D ring at the front of two shoulder straps for Tower Climbing (with Fall Arrester) and one dorsal D Ring for Fall Arrest.

Art No-BT 13

(Class D) for controlled descent

This Harness has Front D ring that is used for controlled descent form height,One Dorsal D ring for Fall Arrest.

Art No-BT 14

(Class P) for work positioning

This harness has 2 Lateral D ring for work positioning , worker can work with both hands free. one D Ring is used for fall Arrest.

Art No-BT 15

(Class E) for Entry and exit in confined area. This harness has 2 sliding D Ring on each shoulder strap to help easy entry and exit into confined spaces. One back d Ring to be used for Fall Arrest.

Beam Team ISI Range harness comes with economy range of 3 strand 12 mm Polypropylene lanyard (length 1.8 mtr/2 mtrs/3 mtrs).

Beamteam 14-16 mm Three Strand twisted polyamide anchorage line is used with Rope grab Fall Arrester.

Art No- BT 71

Art No- BT 1010

BeamTeam twisted polyamide anchorage line is available in 10, 20, 30, 40, 50, 100 meter

Rope Access & Rescue

Rope Access is the means of accessing difficult areas or areas normally inaccessible by conventional means. It involves suspending a person to their point of work by the use of a personal positioning system. The basic rope access equipment should be used with the fall protection system.

Art No-BT 45

Descender

- Works on 10.5-11 mm kernamental rope
- Used for descent on single rope.
- Works on unique self braking system which initiates the brake as soon as the handle is released or clasped tightly.
- Conforms EN 341-Class A

Art No-BT 450

Kernamental Rope

- Kernamental rope is made of Polyamide.
- Available in various length with maximum length of 220 mtrs
- Available in Dia of 9 mm, 10.5 mm, 12 mm

Art No-BT 1010

Anchorage line

- Made up of polyamide.
- Available in various length with maximum length of 200 mtrs.
- Available in Dia of 12 mm, 14 mm.

Pilot Chair

Art No-BT 80

To be used for vertical ascent and descent. Ergonomic and comfortable working chair. Tested as per EN 1498

Road safety

Safety Cone

Beam Team Safety Cones are made for High quality plastic .

Made for LDPE & EVA.High flexibility to avoid crushing.UV Stability for non –Fading Colour.

Reflective sleeve for for day night high visibility. Available in different weight and size

Provision to fix plastic chain, Light bar reflector, Message plate, Plastic rope& Cone Bar.

Available in Bright RED and Orange high visibility colour CE Certified

Art BT RS 1050(A)

Dimension(mm)-1050x390x390

Weiht- 5.3 kg

Injection moulded rubber base

Reflective sleeve- 9 inch

Art BT RS 750(A)

Dimension(mm)-750x390x390

Weiht-4.2 kg

Injection moulded rubber base

Reflective sleeve- 4 inch

Art BT RS1050(B)

Dimension(mm)-1050x390x390

Weiht-1.7 kg

Reflective sleeve- 9 inch

Art BT RS 750(B)

Dimension(mm)-750x390x390

Weight-1.2 kg

Reflective sleeve- 4 inch

Injection moulded rubber base

Applications

Center lane driving

Parking zones

Men at works zone

No entry zone

Diversion of road

Temperory barricading at

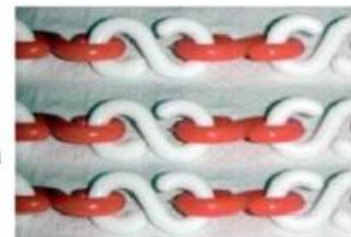

hotels,Malls,Hospitals,railway

station,Airports,Petrol Pumps

Plastic Chain

S Type

Dimension- 8 mmx48mm
